Dear Michael:

Thank you for your letter of 30 April and for your kind words of sympathy. I must be grateful for 62 years of happy partnership and will have much to remember once the initial shock has subsided. I have been inundated with cards and letters and Doris will clearly be remembered by those whom she touched.

I knew ~~that~~ that you had exchanged old photographs and I have found a photo-album full of pictures, but unlabelled. I cannot identify most of the people but if you are interested, I ~~can~~ can copy some of the pages for you. However, I have also found a locket containing two pictures. One is a faded Daguerrotype of a man with a strong face; the other is an old sepia print of, presumably, his wife. I made an enlarged (x2) copy and enclose it in case you can identify them. The locket has a monogram engraved and it ~~is~~ and it looks like a A and B or an A and P *AP*. Any ideas?

Love *Paul*
